

Virtual Urgent Care: Tip Sheet

- On-Demand video visits are accessible from the menu or by going to “Schedule an Appointment”

- Urgent care On-Demand Video Visits are available from **8am – 8pm EST** to be seen by a WVU Medicine provider. If you are trying to request a visit outside of those hours and do not wish to wait to be seen during those times you can click the link to be taken to Teledoc to be seen by one of their providers.

- If the state you are currently in is *not* correct – click change your location and select the appropriate state. Choose a reason for visit by selecting “put me in line” on the symptom that best describes your condition.
